Helstons

Motorcycle stories

Founded in Paris at the end of the 1980s in a modest garment workshop by a young Kamal Kabi (who defines himself today as a “leather artisan”) and his father, and driven by an overwhelming passion for mechanical engineering, the Helstons brand almost immediately devoted itself to creating equipment for those who love distinctive machines.

Its prolific designer brought together his childhood friends to work on this project, and this combination of a family-owned enterprise, enduring friendships, and artisanal expertise became the cornerstone of the company’s success.

With a desire to work every day using a fine material such as leather (Kamal’s favorite material), Helstons naturally began producing beautifully burnished patched jackets.

This eventually led the brand to become THE gold standard in Vintage & Custom style, which became widely popular. Through a collection progressively expanded into gloves, denim trousers, shoes, and helmets, these truly authentic designs were directly inspired by the history and culture of international motorcycle style. This is most likely what led to its great popularity in lands as far away as South Korea or Japan, nowhere near its French homeland.

Our designs, which are valued just as much for their quality as for their durability, are now worn behind the controls and in everyday life, due to their unique, bold style, anywhere gorgeous machines hit the road, for both two- or four-wheeled vehicles, as long as they make us feel something powerful.

The brand has matured and evolved, and is now clearly focused on the future, expanding its collection and reach into new market segments, using a creative approach inspired by fashion and the streets.

Helstons couldn’t resist the idea of taking its community on new adventures, whether it’s through the urban jungle of our modern-day cities, on dirt tracks, or into distant deserts. Our garments are now more comfortable, protective, and contemporary than ever, without sacrificing our essence and authenticity. Our ambition is to keep writing and telling new Motorcycle Stories: your very own.

Wearing a Helstons jacket or helmet helps reveal a bit of the “devil” inside.

This Workbook seeks to help you discover and select the styles that will beautifully enhance your sales floor and attract & satisfy your clients. Its purpose is to be an effective, practical tool.

Technical GLOSSARY

MATERIALS

Leather
The main body is in natural leather.

Fabric
The main body is in textile material.

Leather / Fabric Mix
The main body is made of textile material and natural leather.

Ventilated
Body made of airy Mesh fabric that facilitates air circulation and perspiration evaporation.

Waterproof membrane
A waterproof membrane is built into the product to help you stay dry when it rains.

Waterproof, breathable membrane
A waterproof & breathable membrane is built into the product to help you stay dry when it rains and help perspiration evaporate.

Thermal insulation
Contains built-in insulated padding that retains your body's natural heat and keeps the outside cold at bay by trapping air inside.

Battery-powered heating system
Contains a heating system that uses built-in, battery-powered filaments, with temperature control. Battery life depends on the battery charge level, the heating level required, and the outside temperature.

JACKETS

Rain jacket included
The product includes a rain jacket designed to be worn over it in case of bad weather.

Removable thermal insulation
Contains a removable lining made of insulated padding. To be worn inside the garment when temperatures drop and removed from the garment when temperatures rise.

Back protection included
A CE-certified, removable element or shell is provided with the product.

Removable protection
The product comes with protective shells (shoulders, elbows, and back), which can be removed or inserted.

PANTS

Adjustable knee protection
Protective knee shells that are height-adjustable using Velcro strips. Four levels of adjustment are possible.

Stretch
Contains a material that gives the product a certain amount of elasticity for greater comfort and ease.

Super Stretch
Contains a material that gives the product a certain amount of high-level elasticity for maximum comfort and ease.

Single layer
Single-layer construction with abrasion-resistant fibers woven into the fabric.

GLOVES

Leather palm
Palm construction in natural leather.

Protective metacarpal shells
Contains rigid or semi-soft metacarpal protective shells for optimum protection in case of a fall. Grants the product KP1 CE certification.

Touch-sensitive index finger
A conductive element on the index finger allows for touchscreen use without removing the glove.

SHOES

Leather insole
Insole in natural leather for superior comfort and optimum durability.

Leather outer sole
Outer sole in leather for optimum sturdiness and durability.

Non-slip sole
Non-slip outer sole for superior grip and walking comfort.

Ankle protection
A built-in ergonomic protective element on the ankle (malleolus) offering superior protection.

Comfort zipper
Contains a zipper that allows you to adjust the product's fit.

HELMETS

Precision-locking loop closure
Chin-strap closure system using an adjustable precision-locking loop that offers the perfect balance between safety and practicality.

Double-D loop closure
Chin-strap closure system using a traditional double-D loop that offers the optimum level of safety and precise fit.

Two visors included
The helmet is constructed with a standard clear visor and sold with an additional tinted visor.

STANDARDS

ECE R 22.06

ECE R 22.06
CE-certified helmet that meets the ECE R 22.06 standard

CE EN 13634 : 2017
CE-certified shoe that meets the EN 13634 : 2017 standard

CE EN 17092 : 2020 Level A
Jackets and pants
EN 17092 : 2020 CE certification – Level A, meaning that it offers basic abrasion and tear resistance.

CE EN 17092 : 2020 Level AA
Jackets and pants
CE EN 17092 : 2020 CE certification – Level AA, meaning that it offers medium-level abrasion and tear resistance.

CE EN 17092 : 2020 Level AAA
Jackets and pants
EN 17092 : 2020 CE certification – Level AAA, meaning that it offers maximum abrasion and tear resistance.

CE EN 13594 : 2015 Level KP1
Gloves – EN 13594 : 2015 CE certification – Level KP1, due to the presence of rigid or semi-soft protective shells on the metacarpals.

CE EN 13594 : 2015 Level 1
Gloves – EN 13594 : 2015 CE certification – Level 1, despite the absence of metacarpal protective shells.

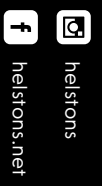

TECHNICAL PARTNERS

Water-repellent padding from PrimaLoft®, the specialist in high-performance thermal insulation (used by the biggest winter sports brands), offers superior lightness, insulation, and breathability for optimum comfort when it's cold outside.

VIBRAM® soles, the world leader in high-performance rubber soles, deliver superior grip, vibration damping, and durability for safe, efficient motorcycle riding.
